HEPA MUNTZ MUSEUM VACUUM CLEANER

555-MU-E HEPA GS

Art. 34011

Compact and lightweight professional vacuum cleaner designed for the careful removal and recovery of dust and other solid particles in hard-to-reach areas, on delicate artworks, and in museum displays. Thanks to its dual ports, the equipment can be used both for vacuuming and air blowing. The power is electronically adjustable.

The MUNTZ "Museum" vacuum cleaners come with a range of accessories made from soft rubber and gentle brushes, allowing precise operation while ensuring complete protection of all types of surfaces.

Complete Set Includes:

- Spiral tube
- 1 round rubber tip
- 1 rigid slotted tip
-

Characteristics:

- Power Supply: 220 V / 50 Hz
- Power: 800 W (equivalent to 1300 W)
- Variable speed control

Filtration Efficiency: 99.997% for particles > 0.3 µm

-
- Dimensions (L x W x H): 320 x 140 x 190 mm
- Weight: 2.4 kg
- Maximum Suction: 2,285 mBar
- Maximum Airflow: 47 L/sec
- Supplied with PH 726 HEPA microfilter
-

Available Accessories:

- PHU-10 Art. 34019 – Mini Nozzle Set
- PHU-14 Art. 34014 – Mini Attachment Set
- PHU-12 Art. 34020 – D-Shape Brush Nozzle (Horsehair)
- PHU-13 Art. 34020/13 – D-Shape Brush Nozzle (Soft Kid)
